

True True Love Never Dies

Conway Twitty

There are so many roads we will travel
And so many mountains we'll climb.
We'll pledge our love to each other
Until the end of time.

As I place my ring on your finger
And swear "'til death do us part.'
You're the one love in my lifetime
The only song in my heart.

And the song never ends with the singer.
The truth out-lives a lie.
The dream lives on when the dreamer is gone
And true, true love never dies.

I will shine for you like a beacon.
A lighthouse on the shore.
I will keep you safe in my harbor
Now and forever more.

And the song never ends with the singer.
The truth out-lives a lie.
The dream lives on when the dreamer is gone
And true, true love never dies.

The song never ends with the singer.
The truth out-lives a lie.
The dream lives on when the dreamer is gone
And true, true love never dies...
