

What Are We Gonna Do About Us

Conway Twitty

I do my best to shield her from the hurt I'm finding now
And I try hard not to give him reason to die
We'd play our part so well we still have the love in trust
Oh, what are we gonna do about us?

Us, two people that were meant for each other
Us, a happiness we found
Us, the reason for the chance we are taking
Oh, what are we gonna do about us?

I tell her I miss her when I'm away from home
And he thinks I get lonely when he leaves me alone
The moments we steal soon won't be enough
Oh, what are we gonna do about us?

Us. two people that were meant for each other
Us, a happiness we found
Us, the reason for the chance we are taking
Oh, what are we gonna do about us?...
