What's A Memory Like You

Conway Twitty

You know you shouldn't be here.
What am I suppose to do?
You know I've found a new love.
And I'm trying to be true.

Didn't you say that we were over?
Why do you keep hanging on?
What makes you think you're welcome?
Can't you just leave us alone?

What's a memory like you
Doing in a love like this?
She thinks we're all through
But that's not the way it is.

When I hold her in my arms
It's your lips I still kiss
What's a memory like you
Doing in a love like this?

Don't you know it would hurt her
To find you here with me.
Why make me remember
The way it used to be?

Can't you see that she can love me
In a way you never could.
And I really want to love her.
Ain't it time you left for good?

What's a memory like you
Doing in a love like this?
She thinks we're all through
But that's not the way it is.

When I hold her in my arms
It's your lips I still kiss.
What's a memory like you
Doing in a love like this?

What's a memory like you
Doing in a love like, like this?
