When The Feeling's Right

Conway Twitty

If you've got a woman that you really love
You've got to show her what you're thinking of
You've got to tell her when she looks fine
Then she'll know what you've got on your mind.

And when the feelin's right she knows what to do
That girl's gonna pour her lovin' all over you
Yeah when the feelin's right you better hold on
That girl's gonna love you all night long.

You've got to show her you mean what you say
And be proud of her every single day
And you've got to hold her and kiss her sweet lips
And feel her body with your fingertips.

And when the feelin's right she knows what to do
That girl's gonna pour her lovin' all over you
Yeah when the feelin's right you better hold on
That girl's gonna love you all night long.

You've got to be there when she needs a friend
Give her lovin' that will never end
And you've got to touch her so gentle and so kind
If you want her you've got to give her a sign.

And when the feelin's right she knows what to do
That girl's gonna pour her lovin' all over you
Yeah when the feelin's right you better hold on
That girl's gonna love you all night long.

When the feeling's right she knows what to do
That girl's gonna pour her lovin' all over you
Yeah when the feelin's right you better hold on
That girl's gonna love you all night long...
