

Who's Gonna Know

Conway Twitty

I know you know whats on my mind
Its been coming on for some time
Theres no way for us to stop it
If we just let go
Who's gonna know (who's gonna know if we touch each other)
Who's gonna know (who's gonna know how it feels together)
If we share our love, who's gonna know?

We've run away from this before
But we can't do that anymore
Sitting here with our hearts on fire
Any nobodys looking
Who's gonna know (who's gonna know if we touch each other)
Who's gonna know (if we spend this night together)
If we share our love, who's gonna know?

Lets go down that narrow road to heaven
Who's gonna find out?
Who's gonna hurt if we do?
Who's gonna know?

If we share our love, who's gonna know?...
