

# You Made Me What I Am

Conway Twitty

You made me what I am today  
Brought me fortune and fame  
Before you came my way  
Things just weren't the same

My hopes and my fondest dreams  
Have all come true  
I'm a king on a throne with treasures unknown  
And it's all because of you

You made me what I am today  
You and you alone  
And if you should ever stray  
I just couldn't go on

I'd give everything to you  
My mansions so tall  
Deep within my heart I know, if you should ever go  
It would crumble and fall

You made me what I am today  
Brought me fortune and fame  
Before you came my way  
Things just weren't the same

My hopes and my fondest dreams  
Have all come true  
I'm a king on a throne with treasures unknown  
And it's all because of you
