Cookiee Kawaii

(Renegade)

Tell me, are you feeling what I feel?
Cause this feeling is so perfect
We can make it work if we're both workin'
Me and you, we can do it but it's soul searchin'
Just from taking me it's just a gamble
I just wanna lead by example
You ain't gotta settle by a sample
I want a grant you, with everything you can handle

Hold me down mentally, I lay you down physically
Me and you build chemistry, now I can feel intensity
I stand at a far distance
We lock eyes and it leads to a transition
We can start with a sensation
I tiptoe in a room full of temptation
Find a chick who would do what I do
Like me, not lightly my shit to spicy
If you really want more you can have more
Special when I said you can get more (Taste good)
Special when I said you can get more
Special when I said you can get more

We can just talk and I won't bark
We ain't gotta fight and I won't bite
Baby, come and get your soul right
Something you can hold on for the whole night
What's a freak to a nympho
Give it to me to the rhythm of a tempo
I'm intense with the intro
Dip low to the sound of the disco

Dip, dip low to the sound of the
Dip, dip, dip, dip low to the sound of the disco, disco
Dip, dip sound of the disco, disco, disco
Sound of the d-d
To the sound of the disco
Dip, dip low to the sound of the dip
Dip, dip, dip, dip low to the sound of the disco, disco
Dip, dip low to the sound of the disco, disco
Dip, dip down to the disco, disco, disco
Sound of the d-d

(Taste good) Special when I said you can get more
Special when I said you can get more
We can just talk and I won't bark
We ain't gotta fight and I won't bite
Baby, come and get your soul right
Something you can hold on for the whole night (More, more, more, more)
