

# Moon Dance

Cookiee Kawaii

I can feel the moonlight  
Come and take me through the night  
You and me will rule tonight  
Don't you feel the moon  
(Here we, here we go)

You better turn me over when I let you in  
But I really, really wanna, wanna let you in  
The vibe is right and the mood is lit  
Just grab my waist while I rock my hips  
I'm giving you body, giving you face while I'm acting naughty  
Drop that kitty down low in the party  
Are you feeling it though  
Sexy walk to the floor, head to toe  
While my shoulders roll  
Touch my head and don't look back  
No smiles, Imma give it to you like that

Give it to you like that  
Imma give it to you like that  
Give it to you like that  
Drop that kitty down low

Down low, down low  
Down low, down low  
Down low, down low  
Drop that kitty down low  
Down low, down low  
Down low  
Drop that kitty down low

The vibe is right, right, right  
Vibe is right, right, right  
The vibe is right, right, right  
Vibe is right, right, right  
The vibe is, the vibe is  
The vibe is, the vibe is  
The vibe is, the vibe is  
The vibe is, the vibe is (Hold up)

Just let the music take control  
Just let the music take control (Take control)  
(Ladies botty bounce to this)

Imma give it to you like that, like that  
Like, like that (Cause I'm giving you body)  
Imma give it to you like that, like that  
Like that, like that  
(Cause I'm giving you body)  
(Giving you face while I'm acting naughty)  
(Cause I'm giving you body)  
(Giving you face while I'm acting naughty)
