

## 5x7

Cooper Alan

Black tux and a white dress  
September sunset  
Up on the wall in a walnut frame  
Cross above them church stairs  
That drop veil in your blonde hair  
That first look at you with my last name

That 5x7  
Of you and me  
Is just one moment  
But what I see

Is 5 years of falling for you  
7 months of saving up  
1000 miles down 85  
That I'd drive to you twice a month  
10,000 ways that you make every day a little  
More like heaven  
I see forever in that 5x7

Long laughs tears cried  
"I was wrong"s  
And make it rights  
Every mile high  
And some late night lows  
Every wind in that road  
Look at how much we've grown  
I swear it's all there if you look at it close  
You'll see

5 years of falling for you  
7 months of saving up  
1000 miles down 85  
That I'd drive to you twice a month  
10,000 ways that you make every day a little  
More like heaven  
I see forever in that 5x7

I see us hand-in-hand right there on Wrightsville Beach  
That day you said you love me I could barely breathe  
I see the first night  
And the first time  
And our first fight  
My whole life  
It's all right  
In that 5x7

I see 5 years of falling for you  
7 months of saving up  
And all the years that I'll be here  
With all I got I'll fight for us  
10,000 ways that you make every day a little  
More like heaven  
I see forever in that 5x7  
Yeah that 5x7  
I see forever in that 5x7
