

Best Man

Cooper Alan

Best man to shotgun a tailgate beer with
To kick back and watch the heels win
To deal with the real when it hits the fan
Best man
To go out cast a couple lines with
Sit and talk wonder where the time went
Through the thick and thin
You've always had my back
And I know I can count on that
When

The best girl in the whole world's up there dressed in white
Whole church packed I'm bout to have the
Best day of my life
Yeah you best believe
This ole boy's gonna need
My best man two steps to the right

Best man
To keep me in check keep me honest
My side you're always on it
But you call it, when I cross a line or two
You're the first call that I made
When I started thinking diamond rings
You'll pour that last shot that I take
Before I say I do to

The best girl in the whole world's up there dressed in white
Whole church packed I'm bout to have the
Best day of my life
Yeah you best believe
This ole boy's gonna need
My best man two steps to the right

Someone I can trust
Knows how much I love

The best girl in the whole world's up there dressed in white
Whole church packed I'm bout to have the
Best day of my life
Yeah you best believe
This ole boy's gonna need
My best man two steps to the right

My best man two steps to the right
