

Devil In My Mind

Cooper Alan

I got a devil inside my mind
That whispers all them things that keep me up at night

There's nights them clouds surround me
And that fire gets too close
When that bourbon gets to burnin'
And it buries me so low
Regrets they start a risin'
I mean pouring down like rain
I ain't a bad man, man
But you know I have those days

I got a devil inside my mind
That whispers all them things that keep me up at night
And my soul needs savin'
But thank God I
I got an angel in my bed
For that devil in my
Devil in my mind

When I'm shackled to my thoughts
She comes and shatters every chain
I just see that halo
And my worries go away
She don't call me crazy
She just says I've got you babe
I know loving me ain't easy
Hell I'll be the first to say

I got a devil inside my mind
That whispers all them things that keep me up at night
And my soul needs savin'
But thank God I
I got an angel in my bed
For that devil in my
Devil in my mind

Yeah loving me ain't easy
Hell I'll be the first to say
I ain't a bad man, man
But sometimes I go insane

I got a devil inside my mind
That whispers all them things that keep me up at night
And my soul needs savin'
But thank God I
I got an angel in my bed
For that devil in my
Devil in my mind
