

Greener Grass

Cooper Alan

Tire marks
Tattooed on the lawn
A note on the door
But the girl was gone
I swore this morning my life was over
Like she pulled the last
Petal off my four-leaf clover

I didn't know what
It was that I'd done
I thought the sun might never rise
My luck had run out
And I let her down
But then I called my dealer up

And
I found me
Some greener grass
From willie at end
Of a cul-de-sac
One two three
I'll strike a match
Watch her memory go
Up in smoke
Yeah I bet she thought she left me
All high and dry
Guess she wasn't all wrong
Got the first part right
Losing her wasn't all that bad
Got all I need
'Cause I found me
Greener grass
I found me greener grass

She told me grow up and
Smell the roses
Now I'm higher
On the hog than
All The Jones'
Yeah the rain came falling
When she said goodbye
So I took another hit and hit me life is
A whole lot sweeter on the other side

I found me
Some greener grass
From willie at end
Of a cul-de-sac
One two three
I'll strike a match
Watch her memory go
Up in smoke
Yeah I bet she thought she left me
All high and dry
Guess she wasn't all wrong
Got the first part right
Losing her wasn't all that bad

I got all I need
'Cause I found me
Greener grass
I found me greener grass

I didn't know what
It was that I done
I thought the sun might never rise
My luck had run out
And I let her down
But then I called my dealer up

And
I found me
Some greener grass
From willie at end
Of a cul-de-sac
One two three
I'll strike a match
Watch her memory go
Up in smoke
Yeah I bet she thought she left me
All high and dry
Guess she wasn't all wrong
Got the first part right
Losing her wasn't all that bad
I got all I need
'Cause I found me
Greener grass
I found me greener grass
I found me greener grass
