

# Holy Ghost

Cooper Alan

Some kind of higher power brought you here to me  
There ain't no other way to explain this mystery  
I was stumbling and wandering  
Through life when you walked in  
And I started wondering  
If maybe you were meant for me

I sent my prayers up high  
I guess God heard all those  
Every day I call you mine  
Ain't heaven but it sure comes close  
I was all kinds of lost  
You brought my heart back home  
No one could've saved my soul  
But you and the Holy Ghost

The way you say it all without a single word  
Making all of my walls fall, crumbling in the dirt  
Your patience  
Forgiveness  
Love with no conditions  
I'm quick to admit it's  
A whole lot more than I deserve

I sent my prayers up high  
I guess God heard all those  
Every day I call you mine  
Ain't heaven but it sure comes close  
I was all kinds of lost  
You brought my heart back home  
No one could've saved my soul  
But you and the Holy Ghost  
The Holy Ghost

Some kind of higher power brought you here to me  
And I thank the good Lord every time I hit my knees

I sent my prayers up high  
I guess God heard all those  
Every day I call you mine  
Ain't heaven but it sure comes close  
I was all kinds of lost  
You brought my heart back home  
No one could've saved my soul  
But you and the Holy Ghost  
The Holy Ghost
