

Keep It To Myself

Cooper Alan

That king cab truck
Sitting in that drive
I keep all cleaned up
For your bright green eyes

That King size bed
In that room upstairs
I keep a silk sheet set
For when you lay there

And that Cabernet
Sitting on that shelf
Ain't the only thing
I can't keep to myself

Cause when you walk in the room
Just say my name and I just can't keep it cool
I'll keep being yours
I thank God you're mine
I'll keep you smiling for the rest of your life
I wanna love you out loud
Ever since that night I fell
Girl you've got all of my heart
I can't keep it to myself

The feelings you
Bring out my heart
Ain't got no use
Kept in the dark

When I hold you close
And our souls collide
I'm gonna let you know
I love you more every time

When you walk in the room
Just say my name and I just can't keep it cool
I'll keep being yours
I thank God you're mine
I'll keep you smiling for the rest of your life
I wanna love you out loud
Ever since that night I fell
Girl you've got all of my heart
I can't keep it to myself

Cause when you walk in the room
Just say my name and I just can't keep it cool
I'll keep being yours
I thank God you're mine
I'll keep you smiling for the rest of your life
I wanna love you out loud
Ever since that night I fell
Girl you've got all of my heart
I can't keep it to myself
I can't keep it to myself
I can't keep it to myself
