

Should've Known Better Days

Cooper Alan

I got a good story second year in college busted with a fake ID
Got a one way ticket community service parents just about killed me

Ay now it's funny

Ay but it wasn't back then

Ay I spent all my money just to own them stories bout the stupid stuff I did

Should've known better

Those should've known better days

I never could forget em

Never wanna trade

That first heartbreak, dumb mistakes, being broke as a joke tryna find my way

Yeah they made me better

Those should've known better days

Then there was that one time I made out with a real life small town beauty queen

But her boyfriend was the bouncer my buddy got a black eye tryna keep him off of me

Ay now it's funny

Ay but it wasn't back then

Ay I would do it all over just to own them stories bout the crazy stuff I did

Should've known better

Those should've known better days

I never could forget em

Never wanna trade

That first heartbreak, dumb mistakes, being broke as a joke tryna find my way

Yeah they made me better

Those should've known better days

You don't get beer stories

Without the shots pouring

You don't get old glories

Unless you live through something

Should've known better

Those should've known better days

I never could forget em

Never wanna trade

That first heartbreak, dumb mistakes, being broke as a joke tryna find my way

Yeah they made me better

Those should've known better days

Those should've known better days
