

Sir

Cooper Alan

I went and picked out this place
I heard they had killer steaks
They make a mean old fashioned
Ain't that your favorite drink

I'm not sure if you can tell
I swear I'm nervous as hell
I think I need a couple sips of that before I
Tell you why I asked you here

Sir your daughter's my whole world
I'm so in love with that girl
I've never been more sure of anything
And I'm gonna spend my whole life
Keeping that light in her eyes
Don't you worry cause
I wanna give her all that she deserves
I give you my word
Sir

I've got a long way to go, but sir I want you to know
I'll work my butt off everyday
To build a life of our own
Laugh a lot and dream big
Just like you and her mom did
No matter what, yeah, I'm all in, all in

Sir your daughter's my whole world
I'm so in love with that girl
I've never been more sure of anything
And I'm gonna spend my whole life
Keeping that light in her eyes
Don't you worry cause
I wanna give her all that she deserves
I give you my word
Man to man please understand
How bad I want to take her hand
I swear to god I won't let you down

Sir your daughter's my whole world
I'm so in love with that girl
I've never been more sure of anything
And I'm gonna spend my whole life
Keeping that light in her eyes
Don't you worry cause
I wanna give her all that she deserves
I give you my word
All that she deserves
Sir
