

The Fridge

Cooper Alan

I was gonna wake up and clean the grill
Pressure wash the deck, maybe pay my bills
Throw a fresh coat of paint on the shed
Weed wack the weeds, shop vac the Chevy
Sweep them floors and WD40 every door but then

Started cleaning out the fridge, came across a beer
Had to tip 'em back till the bottom rack was clear
Then I had a thought out in the garage
Should open that yeti start polishing it off
I didn't cross a single thing that I had off my list
But I cleaned out the fridge
Okay the cooler and the fridge

Checked the lawn chair was folding right
If the cup holder still holds 'em tight
Networking facetimeing my friends
Yeah funny how it started back when

I was cleaning out the fridge, came across a beer
Had to tip 'em back till the bottom rack was clear
Then I had a thought out in the garage
Should open that yeti start polishing it off
I didn't cross a single thing that I had off my list
But I cleaned out the fridge
Okay the cooler and the front fridge and the back fridge
Yeah I cleaned out the fridge

Duck taped a whole in the blowup pool
Got the garden hose filled up the pool
Spent the whole day in the blowup pool
It was pretty cool

Started cleaning out the fridge, came across a beer
Had to tip 'em back till the bottom rack was clear
Then I had a thought out in the garage
Should open that yeti start polishing it off
I didn't cross a single thing that I had off my list

Yeah I cleaned out the fridge
