

Tough Ones

Cooper Alan

Love ain't supposed to be a walk in the park
If it was we'd all have it
It's more like a blindfold reach in the dark
And you're lucky if you can grab it
Now your hand's in mine
I'm gonna keep you close
No matter what curves or roads gonna throw
We won't let go
'Cause we both know

We're gonna be the strong ones
Still standin' when the hell comes
Still runnin' when the well runs dry
Still believin' when the sun don't shine
Ain't afraid of a hard day's night
Won't quit when it don't go right
Let the world bring it, then some
Girl, we're gonna be the tough ones
Yeah, the tough ones

Ain't gonna say there won't be some days
That'll give us all we can take
But we won't back down
We'll make it through somehow
If we lean on love and faith
We're never gonna break

We're gonna be the strong ones
Still standin' when the hell comes
Still runnin' when the well runs dry
Still believin' when the sun don't shine
Ain't afraid of a hard day's night
Won't quit when it don't go right
Let the world bring it, then some
Girl, we're gonna be the tough ones
Yeah, the tough ones

We found each other by the grace of God
So we better give it all
The give we got

We're gonna be the strong ones
Still standin' when the hell comes
Still runnin' when the well runs dry
Still believin' when the sun don't shine
Ain't afraid of a hard day's night
Won't quit when it don't go right
Let the world bring it, then some
Girl, we're gonna be the tough ones
Let the world bring it, then some
Girl, we're gonna be the tough ones
Yeah, the tough ones
