

## Warm Beer

Cooper Alan

You turn on the TV every night  
Seems the right hates the left  
And the left can't stand the right  
Could be the TV station  
The Old Folks blame it on my generations...  
Me I'd rather focus on the positive  
What we got in common is  
Is everybody hates...

Warm beer, cold beans  
Long lights, skeeter bite, short changing vending machine  
Can I get an amen, hallelujah brother say it again  
How about we quit hating on each other  
Drop the gloves and agree with one another right here  
That everybody hates warm beer

I don't mean to be pontificating  
Its a tough situation  
But the point I'm making  
In the words of the great miss Britney Spears  
Its getting toxic here, we got a stop it here  
Let's redirect our energy  
Find a common enemy  
Seems to me... everybody hates

Warm beer, cold beans  
Long lights, skeeter bite, short changing vending machine  
Can I get an amen, hallelujah brother say it again  
How about we quit hating on each other  
Drop the gloves and agree with one another right here  
That everybody hates warm beer

There's no your side or mine  
Crosses all the party lines  
There's no need for debate  
Cause everybody hates...

Warm beer, cold beans  
Long lights, skeeter bite, short changing vending machine  
Can I get an amen, hallelujah brother say it again  
How about we quit hating on each other  
Drop the gloves and agree with one another right here  
That everybody hates warm beer  
That everybody hates warm beer
