

Hold Nothing Back

Copeland

Do what you want but I know who you are
Say what you want but I know what you're thinking
Go where you want but I won't be too far
Go where we want and I know where you'll end up

If you fall in love
Fall in love and hold nothing back
I'll fall in love
Fall in love and hold nothing back from you, oh
You oh
You oh
You

Do what you want but I know who you are
Say what you want but I know what you're thinking
If you fall in love
Fall in love and hold nothing back
I'll fall in love
Fall in love and hold nothing back from you, oh
You oh
You oh
You
