

Share the Day

Coralie Clément

Some people say: "I would love to be strong"
Some people say: "I do everything wrong"
Some people say: "It's a long long way home"
Some people say: "There's no right till you're wrong"
Some people go night after night
Someone to share someone to share for day
Some people shine waving goodbye
Smiling for miles away, miles away

Some people say: "I would love to be wild"
Some people say: "I'm a way too kind to be blind"
Some people think a sigh is just a sigh
Some people think I wish I could be dry
Some people go night after night
Someone to share, someone to share for day
Some people choose west Hollywood
Nothing to lose, nothing to take away
Some people say
Some people say
Some people say: "I wish I could be dead"
