

## 90 Seconds Of Your Time

Corb Lund

It's hard not to take your point, 'cause "yeah, okay, fine"  
How do three mules and a mare just come untied?  
Snake River horse theivin' ain't quite gone outta style  
So it's hard not to take your point, 'cause "yeah, okay, fine"

With that big .44, a killin' on your mind  
All I wanna ask from ya brother's 90 seconds of your time  
And maybe try to change your mind, buddy  
Don't wanna see you get your hands bloody  
Here at home on peace time

We both know you're better off in them Idaho Hills  
Where you can be alone with your thoughts and unconfirmed kills  
The docs at the VA always be a-pushin' them pills  
But we both know that all ya need is them Idaho hills

With that big .44, a killin' on your mind  
All I wanna ask from ya brother's 90 seconds of your time  
And maybe try to change your mind, buddy  
Don't wanna see you get your hands bloody  
Here at home on peace time

Ya think you've got a minute and a half to listen to a friend?  
'Cause I say we go hunt elk, we got tags for them  
Well let's take a minute and a half to just recognize  
Decisions that affect your life, and possibly mine

Why's everybody so surprised you train up a ranger  
Use him up, cut him loose, he goes home and radiates danger?  
All the folks that he knows in town treat him like a stranger  
Why act so surprised? He's an army ranger

With that big .44, a killin' on your mind  
All I wanna ask from ya brother's 90 seconds of your time  
And maybe try to change your mind, Kurty  
Don't wanna see you get your hands dirty  
Here at home on peace time  
Out here in peace time
