

Every day the same day  
It never changes  
I hump the nine to five  
I do what I do just to get by  
Im always fiending for a new life  
Tonights the night  
Im gonna settle the score  
The weekday war for my soul  
Tonights the night Im gonna lose control  
Gonna hit the floor act a fool

boy your on the floor now  
let the music take your soul  
boy your gonna score now  
maybe you should just let go

GO GO if something happens on the floor  
GO GO before they throw us out the door  
GO GO because we want a little more  
And we cant find it here we got to go

GO GO We got to get it to the spot  
GO GO We got to drop it while it hot  
GO GO we got to do it when they not  
Cause we plot quite a lot with the skills that we got

I been waiting for divine inspiration  
From the radio station where to go  
To where the club be hoppin  
The dj be dropping  
Beat boxers boxing with some popping and locking  
Mc's macking stalking folks  
Lyrically attacking squawking jokes  
Got the bouncers bounding  
Got to get pounding  
when the vibe starts winding got to go
