

Mixed Up

Corbin Bleu

Mixed up and i think i like it
Mixed up and i think i like it
Mixed up and i think i like it
Feels so different im cool with it (2x)

Million kids out there like me
On the dance floor wanna be free
Something bout getting lost in the crowd
You cant hear problems cause the musics too loud
I dont care what people be sayin
Im gonna do things my own way
Original no zerox copy
Leader, not a follower so back up off me
If your from the rythm nation lemme hear you all say hey ya
Join in on the conversation put you two cents in say hey ya

Mixed up and i think i like it
Mixed up and i think i like it
Mixed up and i think i like it
Feels so different im cool with it

Mixed up and i think i like it
Mixed up and i think i like it
Mixed up and i think i like it
Feels so different im cool with it

I dont worry bout tryna to fit in
Long as your cool we can be friends
Im a little bit of this little bit of that
Best of both worlds all over the map
Im just a regular guy
I aint even gonna lie
Im trying to figure it out
What this life things all about

If your from the rythm nation lemme hear you all say hey ya
Join in on the conversation put you two cents in say hey ya

Why you gotta place me in a category
Im just trying ot be me and thats all i can be
Its only half the story but if you read to the end
Maybe youll begin to understand me
