

# Shake It Off

Corbin Bleu

If it's the pain  
That you fear  
It will always be right there  
A weight on your back  
Falling aside  
Boy you can't run  
So don't even try  
Cause the demons are right at your heels  
Bringing you down  
Making you feel  
Like you wanna give up  
Just got to give in  
Like you're fighting a fight  
That you know you can't win  
Don't you know you got to

Stand up  
Shake it off  
Look em in the eyes  
(You may never get another) chance to  
Make things right  
Don't pass it by  
Like you never said  
All the things you want to say  
This is your chance so  
Stand up  
For yourself  
Today's your day

There's no easy way to go about it  
Baby you can't doubt it (no no no)  
When they can't hear you  
You've got to shout it  
Cause some of us can't live without it  
If it's the love  
That you need  
You've got to ask (politely)  
Never settle for less (than the sky)  
And if you walk out  
Don't ever let them see you cry  
Don't you know you've got to

Stand up  
Shake it off  
Look em in the eyes  
(You may never get another) chance to  
Make things right  
Don't pass it by  
Like you never said  
All the things you want to say  
This is your chance so  
Stand up  
For yourself  
Today's your day

Come on  
Stand

Come on  
Stand

Stand up  
Shake it off  
Look em in the eyes  
(You may never get another) chance to  
Make things right  
Don't pass it by  
Like you never said  
All the things you want to say  
This is your chance so  
Stand up  
For yourself  
Today's your day  
Stand up  
Shake it off  
Look em in the eyes  
(You may never get another) chance to  
Make things right  
Don't pass it by  
Like you never said  
All the things you want to say  
This is your chance so  
Stand up  
For yourself  
Today's your day

Stand up  
You may never get the chance to
