

## Been Around

Cordae

I think I could do better, but I still  
I want this forever, ugh  
Sometimes life's about the people you know  
Watchin' a flower bloom as its features will grow  
I mean, I've never been one to preach to them folks  
I'm just speakin' from experience, my teachings is dope  
Learning lessons with my brethren, joy is quite contagious  
Counting blessings on blessings, my heart right to make it  
And it's kinda my only option, maybe my decisions  
Haven't really been the best, but this my life I'm living  
Although it seem so bitter-  
sweet when you ain't got nothing to eat  
And Sallie Mae callin' your phone for like the fifth time this  
week  
All your bills overdue, all your bitches over you  
Only one option remains, you just gotta show and prove

And so I know, little darling, I know how the pain, it hurts  
Say something to me, sweetie, we'll get through, we'll make it  
work  
'Cause I've been around, and you've caught me down, bad, I say  
Next time in town, you're always welcome 'round my way

So, take risks and live spontaneous, I'm so insane  
But that's the shit that make me rich and why we love the game  
And to my various enemies who carrying energy of greed and envy  
Just know I love you for centuries, so all is forgiven  
Animosity for none, 'cause I done been through a lot  
Thankful who I have become  
I done lost a couple brothers, dead cousins on the regular  
But I ain't even stressing, count my blessings, know we headed  
up  
I dropped out of school, pops thinkin' I'm a fool  
It may seem all cool, but I'm feelin' awful  
I was down in the dumps with my confidence gone  
But then my whole life changed droppin' prominent songs

And so I know little darling, I know how the pain, it hurts  
Say something to me sweetie, we'll get through, we'll make it w  
ork  
'Cause I've been around, and you've caught me down, bad, I say  
Next time in town, you're always welcome 'round my way
