

# Dinosaurs

Corey Hart

I'm fallin' down the same road  
After all these years  
See Van Gogh in my mirror cry  
Tears won't hear the fears  
In every haunted house move memories chasin'  
A silhouette broken two  
Canvas in my head paint sunrise glory  
But starry night don't shine through  
I'm terrified, I'm anxious  
My body keeps shutting me down  
Stuck in quicksand, everything is  
Nasty underground  
And I don't know where we're headed tonight  
But I know it's gonna be with you  
Maggie, you're the only woman  
Who braves my heart for true  
So when I'm feelin' sad

So when my fate looks very, very bad  
Pay the ransom  
I got the dinosaurs mad

Don't drag me back now  
Back to the perils of my dark despair  
Don't keep your heart now  
Dragons and dungeons serving everywhere  
I will go on being  
So when you see me laughing  
Remember there is joy if you think joy  
Take me to the fountainhead  
Let it roll, man  
As much as everything will change  
Everything stays the same  
Maggie, you are still the one  
The one who lights my flame  
So when I'm feelin' sad

So when my fate looks very, very bad  
Pay the ransom  
I got the dinosaurs mad  
I got the dinosaurs mad
