

Morning Sun

Corey Hart

Beneath the rusted sunset
Look back on the seasons
No reasons to find me regrets
Small house, big family
In two rooms living together
All I wanted to do was sing

With a burning desire
Like Muddy Waters sang the blues

Did I let you down? Did I break your heart?
Moving fast just like a ghost through the trees
Now we've kicked it around and look what we found
The most wonderful time of our lives
Face, face, face brave, gotta have
Face, face, face brave

I don't plan anything too much
Morning sun when it's in my face really shows my age
But these are good old lines

You can't help getting older
But that don't mean you need to get old

Did I let you down? Did I break your heart?
Moving fast just like a ghost through the trees
Now we've kicked it around and look what we found
The most wonderful time of our lives
Face, face, face brave, gotta have
Face, face, face brave

And if my best intentions
Sometimes went missing from the mark

Did I let you down? Did I break your heart?
Moving fast just like a ghost through the trees
Now we've kicked it around and look what we found
The most wonderful time of our lives
Face, face, face brave, you gotta have
Face, face, face brave, gotta live
Face, face, face brave
