Take My Heart

Corey Hart

Take me to the top again Take me to the high road shining 'Cause you know I never seen the world like that You take me to the top again You take me where it's slow and easy 'Cause you know I never dream inside like that I know, I know, I know, I know I know, I know, I know, I know Won't you take my heart Don't leave me here standin' Take my heart Where only you can Take my heart There is no resistance I can only go as far as you can Yea, through the leaves of grass I search And I follow like a soldier Where the battle rages on Reveal what's true And I call to open skies And I call to high plains driftin' Through the wintertime the earth shall feed my soul I know, I know, I know, I know I know, I know, I know, I know Won't you take my heart Don't leave me here standin' Take my heart Where only you can Won't you take my heart There is no resistance I can only go as far as you can Discover borderlands that we have yet to run And you can search forever never reach the sun And I can go on tryin' And I can go on cryin' Won't you take my heart Don't leave me here standin' Take my heart Where only you can Won't you take my heart There is no resistance I can only go as far, o I'm cryin' Take my heart Don't leave me here standin' Take my heart Where only you can Take my heart, o I said I can only go as far as you can-n Take my heart I said, take my heart It's okay It's all right now Everything, everything in my heart.
