

# This Heart

Corey Kent

Yeah

I'm up to no good again  
Burnin' through a second wind  
Turnin' these doubles into nothing  
Tryna drown something  
Burnin' down in my chest  
It's beatin' me black and blue  
Like only goodbye'll do  
Wish I could just drop it  
But I got a problem  
And it ain't even you  
No, it ain't even you

Damn this heart  
And everything that comes with it  
Damn this missing you every night feeling  
I'd rip it out girl if I didn't need it  
If you're gonna break it  
Why don't you keep it  
It ain't doin' nothing but keeping me up  
I can't help it  
It just loves what it loves  
It hurt like hell when you tore it apart  
But I didn't know that it would take it this hard  
Damn this heart

It's like it don't understand  
We're as done as we've ever been  
Yeah, I wish I never felt it  
Nothing I can tell it  
It's draggin' me through hell and back again

Damn this heart  
And everything that comes with it  
Damn this missing you every night feeling  
I'd rip it out girl if I didn't need it  
If you're gonna break it  
Why don't you keep it

It ain't doin' nothing but keeping me up  
I can't help it  
It just loves what it loves  
It hurt like hell when you tore it apart  
But I didn't know that it would take it this hard  
Damn this heart  
Damn this heart

It's beatin' me black and blue  
Like only goodbye'll do  
Wish I could just drop it  
But I got a problem  
And it ain't even you  
No, it ain't even you

Damn this heart  
And everything that comes with it

Damn this missing you every night feeling  
I'd rip it out girl if I didn't need it  
If you're gonna break it  
Well, why don't you keep it  
It ain't doin' nothing but keeping me up  
I can't help it  
It just loves what it loves  
It hurt like hell when you tore it apart  
But I didn't know that it would take it this hard  
Damn this heart  
Damn this heart  
Yeah
