

What It Doesn't Do

Corey Kent

Neon buzz, strangers touch
Everybody raise 'em up to gettin' gone
Dance all night, get sky high
Just another cold Coors Light to help me forget
It helps me forget

But what it doesn't do is fix me and you
Or unsay what I said
It won't make it right when I'm alone tonight
Or put you back in our bed
Make those brake lights light up in the Oklahoma night
Or make you miss me the way I'm missin' you
Yeah, that's what it doesn't do

A whiskey Coke makes me wanna smoke
Not care if I go broke shuttin' this place down
George Jones jukebox songs, hell yeah, I sing along
To help me forget you're gone for a little while
For just a little while

But what it doesn't do is fix me and you
Or unsay what I said
It won't make it right when I'm alone tonight
Or put you back in our bed
Make those brake lights light up in the Oklahoma night
Or make you miss me the way I'm missin' you
Yeah, that's what it doesn't do

It might get you off my mind
Or drown the pain for a little while
Or help me finally get some sleep tonight

But what it doesn't do is fix me and you
Or unsay what I said
It won't make it right when I'm alone tonight
Or put you back in our bed
Make those brake lights light up in the Oklahoma night
Or pick up the phone when my call comes through
Or make you miss me the way I'm missin' you
Yeah, that's what it doesn't do
Yeah, that's what it doesn't do
