

You Got It

Corey Kent

Black time street light cold
Should be heading home
Say you're feeling a little wild tonight
Wanna drop the top with the jeep and drive
Hit that open road

If you wanna run from these city lights well you got it
Wanna disappear into a summer night well you got it
Wanna get there I'm coming
We chase down that sunset we ain't gotta worry about stealing m
y heart
Cause you got it

Highway heartbeat rush
Everytime we touch
Farm falling into my chest
Girl what you doing stealing my breath
One kiss ain't enough

If you wanna run from these city lights well you got it
Wanna disappear into a summer night well you got it
Wanna get there I'm coming
We chase down that sunset we ain't gotta worry about stealing m
y heart
Cause you got it

If you wanna get there I'm coming
We'll chase down that sunset
If you wanna run from these city lights well you got it
You wanna disappear into a summer night well you got it
Wanna get there I'm coming
We chase down that sunset we ain't gotta worry about stealing m
y heart
If you wanna run from these city lights well you got it
You wanna disappear into a summer night well you got it
Wanna get there I'm coming
We chase down that sunset we ain't gotta worry about stealing m
y heart
Cause you got it
You got it
You got it
Yeah
