

Over The Line

Corey Smith

He said suffer children, follow me
There's a light somewhere down Galilee
I'll take you there then you're on your own
Learn all you can and run back home

So I took my turn and it struck be blind
He said boy you're here way before your time
Finally saw the truth and I was terrified
Left all my doubts on the other side

Now I'm broke but I got plenty
I'm busy but I got time
I'm weak but you can't tempt me
I know my limits because I crossed the line

Well life goes around like a roulette wheel
Win or lose it's always a thrill
The odds are long and the stakes are high
But you won't get lucky if you never try
I placed my bets and I've lost my share
Seen a dream come true and vanish in thin air
Spent my nights on bended knees
I cried out to God and God answered me

Oh, I'm broke but I got plenty
I'm busy but I got time
I'm weak but you can't tempt me
I know my limits because I crossed the line

I'm stuck but I'm wide open
Ain't in a hurry but I'm far behind
It's hard but I'm still hoping
I know my limits because I've crossed the line

We've got hearts like wax and heads like steel
The harder we think the less we feel
The obvious ain't plain to see
Till you know that light down Galilee
