

Quality Time

Corey Smith

If there's an empty stool up at the bar tonight
I hope nobody's saving it for me
I've got everything I need here sitting 'round the house
They let me hold the remote control and the liquor's free

Oh, it might sound lame, but it's a happy place
Feels kinda like the good ol' days but better
Naw, it don't take much to make a smiley face
When the people that you love are close together
It's got me wishing we could stay this way forever
I can't get enough of this quality time
Quality time

I'm finally on the same page as my better half
It's hard to beat a Friday night at home
And I ain't been hungover since I traded in
Binge drinking' for binge-watching Yellowstone

Oh, it might sound lame, but it's a happy place
Feels kinda like the good ol' days but better
Naw, it don't take much to make a smiley face
When the people that you love are close together
Its' got me wishing we could stay this way forever
I can't get enough of this quality time (quality time)

I think I finally got my head around
The big upside of settling down

Oh, it might sound lame, but it's a happy place
Feels kinda like the good ol' days but better
Naw, it don't take much to make a smiley face
When the people that you love are close together
It's got me wishing we could stay this way forever
I can't get enough of this quality time (quality time)
All this quality time (quality time)
All this quality time (quality time)
It's kinda like the good ol' days but better
(Quality time)
