

Murder

Corneille

Oh baby, you see I'm a strong man
And I have seen some dark sides of life in my days baby
But nothing, somehow nothing
Compares to this
No no baby

I ain't never been on my two knees before
And I ain't never been the kind to say please before

I'm out of options baby
And tricks to make you stay

This is not a threat
But if you walk out that door
It'll be like
Dragging my heart out in the concrete
It'll be like
Wasting my parts out in the dark streets
It'll be like murder
This will be murder

This is not a threat
But if you walk out that door
It'll be like
Leaving behind a helpless dying man
It'll be like
Simply killing me, don't you understand?
It'll be like murder
This will be murder

I've said I'm sorry
But I guess that didn't work
So I tried 'I love you'
But I guess that made it worse

Because now you're looking at me
Ever so calmly
And it's that look on your face that frightens me

'Cause that look means you've made up your mind
And that look means my crying is a waste of time

I'm out of options baby
Out of tricks to make you stay

This is not a threat
But if you walk out that door
It'll be like
Dragging my heart out in the concrete
It'll be like
Wasting my parts out in the dark streets
It'll be like murder
This will be murder

This is not a threat
But if you walk out that door
It'll be like

Leaving behind a helpless dying man
It'll be like
Simply killing me, don't you understand?
It'll be like murder
This will be murder

You see, I need you to stay
Out of pity, love or lack of choice
It don't matter today

We can face reality tomorrow
But for now, just for now
Let's just run away

This is not a threat
But if you walk out that door
It'll be like
Dragging my heart out in the concrete
It'll be like
Wasting my parts out in the dark streets
It'll be like murder
This will be murder

This is not a threat
But if you walk out that door
It'll be like
Leaving behind a helpless dying man
It'll be like
Simply killing me, don't you understand?
It'll be like murder
This will be murder
