

Something Makes You Feel Like

Cornershop

Something
Makes you feel like
The grass is greener on the other side
But where is the other side?
Oh something
Makes you feel like
Life was better once upon a time
But when is upon a time?

And now a day
To what?
Jump into a plane and fly and fly and fly and fly far from home
Forget your guilt

For your tummy, for your head
When you can't sleep, you're depressed
You feel weak, do you bleed?
No? Then stop your whining
Prozac is not your friend
It doesn't make you a better man
It's not going to save you from the end
[?], decide that
We're gonna die anyway

You're just a kid so why don't you think about...

You're just a kid so why don't you
Think about surfing and how that tingles
You're way too young to be depressed
And way too nice to be stressed
Frowning doesn't suit you
So put a smile on your face

Something
Makes you feel like
The grass is greener on the other side
But there's no other side

Something
Makes you feel like
But when is upon a time?

Something
Makes me feel like
Grass is greener on the other side
But there is no other side
