

# Baby Baby

Corona

Baby, baby  
Why can't we just stay together ?  
Yeah, yeah yeah  
Baby, baby  
Why can't we just stay forever ?  
Yeah, yeah yeah

I wanna roll inside your soul  
To know the things that you need and feel  
Every time that you're by my side  
I can't get serious  
Because you got me

Cold chill down my spine  
No, no more tears, show me a smile  
Cold chill down my spine  
No, no more tears, show me a smile

Deep inside, I know you need it  
Just let it out, and get it on  
You gotta feel it  
Every time that you're by my side,  
Just think it over,  
I'll make you glad
