

# I Can't Wait

Corona

I can't wait, I can't wait, I can't wait  
I can't wait to be with you  
I can't leave, I can't leave, I can't leave one more time

I will pray, I will pray, I will pray  
Just an instant before I die  
Before I fly  
My love is breaking in the sunrise  
My love is growing at the same time  
My love is breaking at the same time  
You're crying

I can't wait, I can't wait, I can't wait  
I can't wait to be with you  
I can't stay, I can't stay  
I can't stay so far from you, from you, from you, from you  
From you, from you, from you, from you  
I can't stay so far from you right now

I can't wait, I can't wait, I can't wait  
I can't wait to be with you  
I can't leave, I can't leave, I can't leave one more time

I will pray, I will pray, I will pray  
Just an instant before I die  
Before I fly  
My love is breaking in the sunrise  
My love is growing at the same time  
My love is breaking at the same time  
You're crying

I can't stay so far from you, from you, from you, from you  
From you, from you, from you, from you  
I can't stay so far from you right now
