

# Midsommar

Coronatus

Midsommar feast  
Welcome the white nights

All of us gathered here in the green

The drink and the dance  
Follow the old rites

All of us gathered here in the green

Bonfires burn  
Pardoned are all slights

All of us gathered here in the green

We celebrate our life  
We celebrate until dawn  
We are all children of nature  
Life needs both brain and the brawn

We overbear  
Cold winters, sharp plights

All of us celebrate on this ground

Noble and brave  
Bold acres' fine knights

All of our living is nature bound

But think of the Nöck  
That lives in the lake sites

He will try  
Taking you to the ground

We celebrate our life  
We celebrate until dawn  
We are all children of nature  
Embrace what nature has born

We celebrate our life  
We celebrate until dawn  
We are all children of nature  
Life needs both brain and the brawn

We celebrate our life  
We celebrate until dawn  
We are all children of nature  
Embrace what nature has born

We celebrate our life  
We celebrate until dawn  
We are all children of nature  
Life needs both brain and the brawn
