

Suicide Command

Coroner

Now I'm up, ready to die

** ** *

Gun in my heart, death in my brain

My home is death, is now.

Killing and dying ** ** is **

The old death's gone, die.

My stake is high, the price to die

The one way ticket to Hell.

Hunting, seeking, finding, destroying - die.

Praying, pleading, cannot wait - for death.

[solo]

Again

[solo]

There's no return,

"he snakes inside"

I'm racing as fast as I can.

The sun's on my back,

And death's in front.

Sweat on my forehead's - burnin'

The moment is right, to go down and die,

And make a request for my heart.

Waiting for it, deliverance is here.

See you in Hell my friend.

Hunting, seeking, finding, destroying, die.

Praying, pleading, cannot wait for death.
