

Let It Go

Corrinne May

I think we've been here before
I recognize this place
I've seen the marks of confusion
wipe out a single sign of grace
And I don't want to play anymore
Not when the stakes are so high
So before we circle round once more
I'm gonna lay down,
Lay down my pride

Let it go, let it be
Don't waste all your emotion on this
tit-for-tat machine
Let it go, let it be
Let it go

I turn on the TV
and it screams out at me
Nothing seems to have changed
since the start of Adam and Eve
So we're waiting for the sky to fall
and we're buying brand new toys
But before we circle round once more
Can we lay down
Just lay down this pride

Let it go, let it be
Don't waste all your emotion on this
tit-for-tat machine
Let it go, let it be

Let it go

Don't go wasting your emotions

No one wins if we keep score

Let it go, let it be

Let it go
