

# Carry Me My Bones

Corroded

Been awake for days  
On my way to hell  
I'm not going to lay down  
And die before I get there  
Only way out through  
And way past you  
What you believe  
Is more than you know  
Carry me my tired bones  
(Tired bones)  
Far away so far from secrets  
(So far from secrets now)  
Many million miles away  
(Miles away)  
Carry me my tired bones  
(Carry me so carry me)  
I was stuck in between  
No place and nowhere  
It's the lies that undo us  
How much of me is still alive?  
Only way out through  
And way past you  
What you believe  
Is more than you know  
Carry me my tired bones  
(Tired bones)  
Far away so far from secrets  
(So far from secrets now)  
Many million miles away  
(Miles away)  
Carry me my tired bones  
(Carry me so carry me)  
Carry me my tired bones  
Far away so far from secrets  
Many million miles away  
Carry me my tired bones  
(Carry me so carry me)  
Carry me my tired bones  
(Tired bones)  
Far away so far from secrets  
(So far from secrets now)  
Many million miles away  
(Miles away)  
Carry me my tired bones  
(Carry me so carry me)
