

# Catch Me When I Fall

The Corrs

Falling in over my head  
Caught out, out of my depth  
Trying to find my way, I am lost  
So I'm running around in circles through it all

Close, close my eyes  
Sleep, sleep tonight  
Adrift upon your ocean, I can hide  
No more running around in circles for a while

Will you catch me when I fall?  
Will you save me from it all?  
Will you lay me down in golden like a doll?  
And be my sunshine through the night  
Be my hope when all is gone  
Be my soldier while I try to fight on  
Will you keep on loving me through it all?  
Will you be there to catch me when I fall?

Calling, calling your name  
Save me, save me again  
Adrift upon your ocean, I am blind  
No more running around in circles in my mind

Will you catch me when I fall?  
Will you save me from it all?  
Will you lay me down in golden like a doll?  
And be my sunshine through the night  
Be my hope when all is gone  
Be my soldier while I try to fight on  
Will you keep on loving me through it all?  
Will you be there to catch me when I fall?

Adrift upon your ocean, I am blind  
No more running around in circles in my mind

Will you catch me when I fall?  
Will you save me from it all?  
Will you lay me down in golden like a doll?  
And be my sunshine through the night  
Be my hope when all is gone  
Be my soldier while I try to fight on

Will you keep on loving me through it all?  
Will you be there to catch me when I fall?  
Will you keep on loving me through it all?  
Will you be there to catch me when I fall?
