## What I Know

I know what I know

Maybe I was young and didn't understand Or maybe I just didn't give a damn Either way there was a lesson to be learned I held the fire til it burned I used to think I was so clever Now I see that I was just like you

Before I discovered, what I know Could save you some trouble Cos I know, what I know, the hard way Yeah, yeah, yeah-ie...

Listen up and you will know what not to do Oh... carry on until we carry you Either way it's taught the lesson will be learned Why wait until the tables turned

Like you I thought I was so clever Now I see, that I was just a fool

Until I discovered what I know Could save you some trouble What I know, I learned the hard way What I know, I had to discover What I know could save you some trouble Cos I know what I know, the hard way... Yeah, yeah, yeah-ie...

Mmm, Mmm, Mmm
I know what I know
(You're sure you won't mind)
I know what I know
(You wouldn't have to rewind)
I know what I know
(If I could show you my mind)
I know what I know
(You wouldn't have to rewind)
I know what I know
(You wouldn't have to rewind)
I know what I know
(You wouldn't have to rewind)
I know what I know
(You wouldn't have to rewind)

I used to think I was so clever But now I see I was just like you

Until I discovered what I know Could save you some trouble What I know, I learned the hard way What I know, I had to discover What I know, could save you some trouble Cos I know what I know, the hard way Yeah, yeah, yeah-ie... Yeah, yeah, yeah-ie... Jistano z pisaicky work fie... The Corrs
