

Cold December

Cory Lee

Ha ha ha ha... ha ha ha... ha ha ha ha... ha ha ha ha...
Haaaaaa haaaaaaa hooooooo hoooooou...

Tell me where did we go wrong
Tell me where did we get lost
Never thought that we could get so heated
Can't see my life without you in it
I wish that I could full turn
But I just got to let it burn
There's nothing I can do about it
Makes me wanna scream and shout it
And I know can't go back
Gotta let it go
As a matter of fact, wanna let you know
Wanna let u know that...
I'm so alone
And I can't take it

Wanna miss sun shining through the rain
April showers fell
And washed all the tears away
Summers come and gone
Watch the colors change
This cold december
Now the sky is gray
Snow is on the ground
All those sunny days
Now no where to be found
When I need you the most
Where are you know?
This cold december...

If it was something I said
If it was something I did
Whatever I broke I'll fix it
Whatever you want I'll give it
And I know I can't go back
Gotta let it go
As a matter of fact, wanna let you know
Wanna let u know that...
I'm so alone
And I can't take it, no

Wanna miss sun shining through the rain
Aprils showers fell
And washed all the tears away
Summers come and gone
Watch the colors change
This cold december...
This cold december
Now the sky is gray
Snow is on the ground
All those sunny days
Now no where to be found
When I need you the most,
Where are you now?
This cold december

Boy I miss you in my arms
And I tried with all my heart
To make you stay
Make you stay...
Now your memory is faint too gray
Like the coldest winter day
Help me please...
Help me please

Oh baby iiii
Wanna miss sun shining through the rain
Aprils showers fell
And washed all the tears away
Summers come and gone
Watch the colors change
This cold december...
Cold december
Now the sky is gray
Snow is on the ground
All those sunny days
Now no where to be found
When I need you the most
Where are you now?
This cold december

Wanna miss sun shining through the rain
Aprils showers fell
And washed all the tears away
Summers come and gone
Watch the colors change
This cold december...
Cold december
Now the sky is gray
Snow is on the ground
All those sunny days
Now no where to be found
When I need you the most
Where are you now?
This cold december...
