

# What A Difference A Day Makes

Cory Lee

What a difference a day makes  
All alone as the day breaks  
Suddenly there's just a cold space  
And some heartache here for me

What a difference a day makes  
Yesterday we were ok  
In a moment my whole world changed  
Loves a cruel game my baby

It's funny how the sun  
Can leave you cryin  
It's funny how a little rain  
Can change your life

It's funny how the tables can turn  
Lessons to learn, bridges to burn (oh baby, baby)  
It only takes a second to say goodbye  
Ohh

What a difference a day makes  
All alone as the day breaks  
Suddenly there's just a cold space  
And some heartache here for me

What a difference a day makes  
Yesterday we were ok  
In a moment my whole world changed  
Loves a cruel game my baby

It's easier to take  
A love forgranted  
When everything  
Is were it's suppose to be

But when my shelter fell to the ground  
Pain came around, breakin me down (oh baby, baby)  
Now my lonely heart can only bleed  
I'm tryin to understand

Why, why, why (3x) baby  
O baby won't you tell me  
Why, why, why (2x) tryin to understand  
Why, why, why baby, baby

What a difference a day makes  
All alone as the day breaks  
Suddenly there's just a cold space  
And some heartache here for me

What a difference a day makes  
Yesterday we were ok  
In a moment my whole world changed  
Loves a cruel game my baby

I'm tryin to understand  
Why, why, why (3x) baby

O baby won't you tell me  
Why, why, why (3x) baby, baby
