

Empty Bottles

Cory Marks

Got a million different memories in this town
Cheap beer, cheap cigars, and chasing them girls around
At seventeen that was living, you had it all figured out
Somehow

A fifth of Jack at a college bar
Helped me dance, made you laugh, brought me closer to your heart
t
Four years later, still you and me but man what I wouldn't be
Thanks to empty bottles

Popped that top and drank it down
Another beer, another round
Man those years flew by, hell I've lost count
Looking back feels like a dream
We made some damn good memories
Through empty bottles

To the wedding and the best man's speech
Yeah it went on forever, so here's to you and me
To a night we'll never forget, tomorrow there'll be a mess
Of empty bottles, yeah

Popped that top and drank it down
Another beer, another round
Man those years flew by, hell I've lost count
Looking back feels like a dream
We made some damn good memories, yeah
Through empty bottles
Through empty bottles

Popped that top and drank it down
Another beer, another round
Man those years flew by, hell I've lost count
Looking back feels like a dream
We made some damn good memories
Through empty bottles
Through empty bottles
Oooh

Now it's 2 am and just you and me
Shh, gotta keep it down cause mama needs sleep
Yeah but don't worry boy, cause you got me
To fill that empty bottle
