

# Hold On

Cory Marks

There's times we want  
There's times we need  
Everybody's got a story they want us to see  
You got yours, I got mine  
It ain't sunshine and rainbows all the time  
Sky gets dark, the sea gets rough  
We're just spinning our tires, stuck in the mud  
Kick this life into overdrive  
I'm buckled up right by your side

Just reach out and take my hand  
Cause I'll be here till the bitter end  
When others break, I will not bend  
I won't let go  
So hold on  
So hold on

If you're going through hell and can't break free  
There's better days ahead, you're gonna see  
Sun's coming up, it's gonna shine  
Don't ever be scared to step outside  
You gotta be strong, you gotta be tough  
When you get knocked down, get right back up  
No matter what we'll make it through  
Cause you got me and I got you

Just reach out and take my hand  
Cause I'll be here till the bitter end  
When others break, I will not bend  
I won't let go  
So hold on

When the walls cave in on you  
Hold on  
When the love ain't getting through  
Hold on

When you feel like letting go  
Hold on

Just reach out and take my hand  
Cause I'll be here till the bitter end  
When others break, I will not bend  
I won't let go  
So hold on  
So hold on
