

# Keep Doing What I Do

Cory Marks

I roll out of bed I roll one up  
Pour a little whiskey in my dixie cup  
Take a drink take a toke  
Tilt my head back and enjoy that smoke  
I'm feeling better already  
Hands went from shaking to steady  
And my head don't hurt no more  
The sun's going down and I'm ready  
Friends are pulling up in that chevy  
Kicking empties out the door  
Time to call the girls and call the boys  
And make a whole lotta that small town noise

I drink I smoke, ain't scared to fight  
Living each day like a Friday night  
Why would I change, why stop now  
You can go ahead and try and talk me down  
I like to party, have a good time  
Making new friends, shootin' back that shine  
We all got dreams, I'm living mine it's true  
So here's to you  
I'm gonna raise some hell and keep doing what I do  
Keep doing what I do

Working all week, nine to five  
That ain't how I pictured this life of mine  
Cause I can't listen, but I won't lie  
I'd rather do shit on my own fucking time  
I live my life and I love it  
You can take that job and shove it  
Like paycheck said to do  
Treating every day like the weekend  
Party all night cause I can sleep in  
It ain't easy living like I do  
So call the girls and call the boys  
Make a whole lotta that small town noise

I drink I smoke, ain't scared to fight  
Living each day like a Friday night  
Why would I change, why stop now  
You can go ahead and try and talk me down  
I like to party, have a good time  
Making new friends, shootin' back that shine  
We all got dreams, I'm living mine it's true  
So here's to you  
I'm gonna raise some hell and keep doing what I do  
Keep doing what I do  
Keep doing what I do  
Keep doing what I do  
Keep doing what I do

So call the girls and call the boys  
And make a whole lot of the that small town noise

I drink I smoke, ain't scared to fight  
Living each day like a Friday night  
Why would I change, why stop now

You can go ahead and try and talk me down  
I like to party, have a good time  
Making new friends shootin' Churko's shine  
We all got dreams, I'm living mine It's true  
So here's to you

I'm gonna raise some hell and keep doing what I do  
Keep doing what I do
