

Lit Up

Cory Marks

Ain't got no party, ain't got no friends
I'm back in town so I can tear it down again
I like this feeling, got no control
I like to see how fast and crazy we can go

I'll find the whiskey, I'll find the strip
I'm taking shots, my credit card don't give a shit
My kind of people, yeah they all know
I love it country or just straight up rock and roll

Let's light it up and watch it go
A round of shots, you know I won't say no
A little whiskey makes me shine
Tomorrow ain't on my mind
I'm getting lit up tonight

These drinks are flowing, one more Patrón
Not gonna leave until they kick us out the door
It's getting crazy, we'll go all night
I might get lucky, or I might just start a fight

Let's light it up and watch it go
A round of shots, you know I won't say no
A little whiskey makes me shine
Tomorrow ain't on my mind
I'm getting lit up tonight

I'm getting lit up tonight
I'm getting lit up tonight

Let's light it up and watch it go
A round of shots, you know I won't say no
A little whiskey makes me shine
Tomorrow ain't on my mind
I'm getting lit up tonight

I'm getting lit up tonight
